

GROVER WONT TALK  
ABOUT OILY DAVIDDECLINES TO DECLARE FOR  
SENATOR HILL.

President Reaches New York—Arthur P. Gorman Has Troubles of His Own and Will Not Stump New York for the Democrats—Reed's Ovation in Minnesota.

New York, Oct. 25.—"Will you endorse the candidacy of Senator Hill for the governorship, Mr. President?" President Cleveland, who reached this city from Greenwich, Conn., yesterday, was asked this question fairly and squarely by a correspondent as he disembarked from the train. The President looked straight ahead of him, over the head of his interpreter, but said never a word. When the question was asked again in another form Mr. Cleveland regarded its author quizzically and said:

"I do not wish to be interviewed."

Then he proffered his arm to Mrs. Cleveland, who had come down with him to do some shopping, and started for the carriage in waiting.

President Cleveland looked the picture of health. He was dressed in a suit of dark material and wore a light overcoat and silk hat. Mrs. Cleveland looked very handsome in a neat tailor-made traveling suit of light brown, which displayed her figure to excellent advantage. She carried a large bouquet of sweet-peas. While waiting for the carriage a small crowd surrounded the party and gave a cheer. The President took his seat, evidently not noticing the enthusiasm his appearance had caused.

Banker Benedict, at whose house at Greenwich Mr. Cleveland remained last night, said he did not know where the President would stop. While Mr. Cleveland would not be his guest, and he did not know whether he would visit Dr. Bryant or not.

Dr. Bryant, who is the President's physician, declined to say whether the President and Mrs. Cleveland would be his guests during his sojourn in the city or not.

NEW YORK, Oct. 25.—The official call just issued by President Compers for the fourteenth annual convention of the American Federation of Labor, to be held at Denver commencing Dec. 10, speaks at considerable length concerning recent railroad strikes. Among other things the president says: The judiciary, yielding to the wealth and bidding of avaricious corporations, has, by the flagrant issuance of injunctions restraining union men from exercising their natural and legal rights, and punishing them for contempt, practically flung to the winds the right of trial by jury. The right of the masses of labor to organize for protection is placed in jeopardy, the courts deciding our organizations to be conspiracies. ## BONDSMEN EXAMINE MR. CARD'S REPORT

TREASURER MURPHY'S SURETIES HOLD A MEETING.

Committees Appointed to Investigate the Affairs and See What is Actually Due—Expert's Report in Full on the City's Method of Book Keeping.

Ex-Treasurer Murphy's bondsmen have looked into his accounts far enough to be satisfied there has not been the slightest dishonesty. The bondsmen are C. L. Valentine, A. P. Lovejoy, J. D. Rexford, David Jeffris, Dr. Henry Palmer, C. S. Jackson, W. T. Vankirk, R. L. Colvin, C. B. Conrad, O. F. Nowlan, H. F. Bliss, Richard O'Donnell, J. W. St. John, L. B. Carle, S. B. Smith, and J. M. Nelson. At a meeting last night O. F. Nowlan, L. B. Carle and J. M. Nelson were made a committee to examine the securities offered by the ex-treasurer. L. B. Carle, L. Farnsworth and C. L. Valentine will investigate the report filed with the council and see what additional data is to be found. Mr. Card's report reads as follows:

"GENTLEMEN: I would respectfully submit the following report of my examination and audits of the accounts of Michael Murphy, ex-city treasurer of Janesville, Wis., for eight years, commencing April 20, 1886, and ending April 17, 1894, and of the condition in which I found the said accounts.

"My purpose in this examination is simply to locate all errors and discrepancies of whatever nature which appear in the accounts and to correctly adjust the same. By a system of double-entry book-keeping, making proper journal entries for same and leaving a ledger in which such errors and discrepancies are correctly debited or credited to the proper accounts, and finally to report whether any amount is due to the city of Janesville, Wis., or owing to the said city.

"I find accounts opened in a small journal showing certain amounts collected on account of city taxes and also state and county taxes for two or three years, but these accounts are in such a shape and condition that they are utterly useless for any purpose of my examination.

### Bank Account Not Kept Up.

"I find an account opened with the Merchants and Mechanics Savings bank April 20, 1886, and kept up until July 14, 1886, as per ledger folios 74, say for three months' time only, and then discontinued for the balance of the eight years.

"I find an account opened with the County National bank on April 20, 1886, and kept until June 18, 1886, as per ledger folio 56, say for two months' time only, and then discontinued for the balance of the eight years.

"I find an account as between the city and the treasurer opened April 20, 1886, and kept until November 1886, as per ledger folios 98 to 101, say about seven months time only, and then discontinued for the balance of the eight years.

"I can find no trace of any dash account in the ledger.

I am required to examine and audit an account, which by its very nature is and only can be a cash account, that is "cash received" and "cash disbursed," and at the very first step of my examination, I am confronted with the fact that for any purpose of said examination, I cannot find any cash account or even bank accounts to examine and audit, and after asking for the bank books I was unable to procure them.

"I cannot find any double entry sets of books, such as would be kept if there was a city comptroller or a city general accountant, or if the city had employed a general book-keeper, in which set of books would appear an account of the city treasurer which account could be used for the purpose of verifying the accounts kept in the office of the city treasurer.

### One Book Serves For All.

"I do find one book denominated a ledger, but in form a journal, said ledger being kept by the city treasurer, but the correct and only purpose, (as it has been kept, and with the various accounts which I find therein contained) is to contain accounts with the various funds (as will be clearly seen if you read the names of said various accounts in the index of said ledger), the same being the amounts properly debited or credited to each fund. The "balances" in said ledger actually represent only the unexpended amount remaining to the credit of said fund, and should not under any circumstances represent a cash account in any sense of the word. As I am required to examine and audit an account which can be nothing else than a cash account, and as the ledger just referred to contains the only accounts which I can find I am forced by these facts much against my will, to treat said ledger as a single cash account for the entire eight years, and thus to examine and audit the accounts contained therein, and thus to use this ledger for a purpose entirely foreign to its legitimate and correct purposes.

"I find that it has been the custom of the city treasurer to render to the common council monthly reports of the amounts debited and credited to the various funds, and the balances remaining to the credit of said funds. The entries to the debit or credit of these funds should have been originally made in the ledger and the monthly reports should have been made from the ledger, then if there were any omissions of any amounts, either debit or credit, such omissions

would be in the monthly reports and not in the ledger. But I find that the original entries must have been made in the monthly reports and I find that said entries in a great many instances have not been transferred from the monthly reports to the ledger, thus making the omissions of proper debits or credits in the ledger, and also making the monthly reports the actual account of the treasurer, and not the ledger, as it should have been.

### Several Items Not Included.

"Thus the following were included in the monthly reports but omitted from the ledger, viz: The whole of the feed account from December 1, 1890, to April 1, 1894, a period of four years and four months, consisting of 133 entries. Highway, street and bridge fund—five entries; general fund—one entry; North Hickory street and grading fund—five entries; South Hickory street grading fund, five entries; Palm street grading fund, five entries; Chatham street grading fund, six entries; Locust street grading fund, four entries; Prospect avenue grading fund, one entry; Fifth ward fund, six entries; West Milwaukee street paving and curbing fund, eleven entries, being the whole account of the fund, making in all one hundred and eighty-six debits or credits, scattered in twelve different accounts, entirely omitted from the ledger, which ledger was the only book of accounts I could find to examine and audit, and which I was forced to treat as a single cash account for the entire eight years. This singular state of affairs forced me to take each monthly report made by the treasurer for the whole eight years into my examination in addition to my examination which I need not have done if the ledger had been properly kept.

"I also find that the balances in the ledger are not carried forward correctly. As a single example, refer to ledger folio 562, general fund, September 1, 1893, and you will find a balance of \$2,010.93, and this same balance carried to top of the very next page as \$6,010.93, a difference of an even \$4,000. This error runs in this account for some time, until finally on August 1, 1893, the balance as shown by ledger is made about correct, as per ledger entries, being within one dollar of the balance as I have it on that date.

### Balance Not Entered in the Ledger

"I also find that balances have been entirely omitted from the ledger, as for example, fire and water fund. Not a single balance is entered in the ledger from March 1, 1890, to March 31, 1893, a period of three years. Refer to ledger folio 221 and on to folio 240.

"From the foregoing facts it can clearly be seen that in order to accomplish the object of this examination and audit, I was simply forced to check all receipts and all disbursements, item by item, and also to compare the ledger with the monthly reports month by month for the entire period of eight years.

"In order to get at the exact facts regarding all matters under my investigation and in order to properly audit this account, I have examined all records bearing on said matters which I could find for the whole period of eight years as follows: The printed reports of the board of supervisors of Rock county; the records in the county clerk's office; the records in the county treasurer's office; the records in the office of the clerk of the circuit court; the records in the office of the clerk of the municipal court; the record of the board of education; the reports of the library board; the reports of the municipal court; the reports of the chief of fire department; record of the county jail, records in the office of the city clerk; all receipts and paid checks on banks bearing on this case which I could find in the office of the clerk of the municipal court, and have had procured for my use a statement from the state treasurer showing what amounts he had remitted to city treasurer for the past eight years, and I have checked all of these various records and reports with the accounts in the office of the city treasurer.

### Close Examination of City Records.

"I have examined the minutes of each meeting of the common council for the whole period of eight years, line by line, sufficiently to determine exactly what saloon licenses had been granted and I have checked same with the records in the office of the city treasurer, license by license.

"I have footed all regular and special assessment tax rolls for the entire eight years, and I have checked all tax rolls with tax receipts item by item, and I have also footed each tax receipt for the whole eight years.

"I have carefully examined each and every order paid during the entire eight years regarding the following points, viz: first, compared amounts in figures with amounts in words; second, ascertained if all orders had been signed by the proper officers, as for example, by mayor and city clerk; by president and clerk of the board of education, and president and secretary of the public library, and I have examined each of these signatures as to its being a genuine signature. Then I have checked each paid order with entry on ledger, and I have also seen that each order was charged to the proper fund, and whenever I have found orders charged to the wrong fund I have corrected the error in my journal and ledger, crediting the fund which had been properly charged with it, and debiting the amount to the proper fund."

### How the Results Were Verified.

Mr. Card goes on to detail his methods in sifting the city accounts, every entry bearing upon the treasurer's affairs was traced to its source.

Receipt books with stubs furnish the only record of three classes of payments—and these receipts and stubs were carefully checked. Mr. Card continues:

"In the course of my examination I found errors and discrepancies too numerous to mention in detail in this report but listed in this report. I have thought best to call your attention to some of these errors and discrepancies, follows: In the matter of tax collections the word "paid" and also the number of the tax receipt should have been extended opposite the proper item on tax roll when the same was paid, and should have been done in every instance, but I have found in a number of cases that no notation at all had been made. In others simply the word "paid," and still others the whole notation had been made but an entirely wrong number tax receipt had been given.

"I find many instances where the stubs of the tax receipts properly signed by the treasurer which are the only records I have of these transactions, and which records I have to examine and audit, clearly show upon their face, that personal taxes have been collected twice. In other cases I find real estate taxes apparently collected twice, and in one instance given below, I have made a full investigation and have found that the taxes were actually collected twice, and in this case I have taken the same into my account, and the same should be refunded by the city. This instance is as follows: See 1891 rolls, Fourth ward 31, H. A. Macloon, lots 120 and 122, Smith Bailey & Stone addition, amount of tax being \$37.49, which amount was collected from Miss H. A. Macloon, October 26, 1891, receipt 1214, and again collected from W. H. H. Macloon, April 1, 1892, receipt 246, farming lands book.

### Tax Fixed at Too High a Figure.

"In a large number of instances I find the following facts exists, mainly in real estate rolls. The taxes on certain real estate assessed against a certain person on a certain roll will be a certain amount and the tax receipt stub for the collection from this identical party of the tax of this identical property will show an amount in excess of amount of roll. For example, refer to tax roll for 1892, First ward, folio 34, Croft's addition, Josiah T. Wright, lots 1, 2, 3, and 4, amount of tax \$50.47, while receipt 360 farming lands book for same party and same description of property, reads \$50.51, being an amount in excess of \$1.04.

"I also find many cases where personal taxes collected in tax receipts in that particular year are in excess of amounts appearing on rolls for same party that year, as for example, refer to 1892, Fifth ward folio 2, Thomas P. Burns, amount of tax \$2.30, and roll is marked paid No. 1979, which receipt reads \$2.58 a difference of 38 cents. I find quite a number of cases where property has been sold for taxes and tax certificate issued, and at the same time I also find regular tax for same taxes just as though the property had not been sold.

### Delinquent List and Tax Roll Disagree.

"I also find several cases where amounts of tax is shown on roll when same should exactly agree, said excess amounts varying from \$1.74, to \$5.70. I also find five different places in tax rolls of 1889 where more of the original figures showing the amount of tax levy have evidently been erased and new figures have been entered on tax rolls after the said rolls had been made and footed by the city clerk, and after same had been turned over to the treasurer for collection, thus raising the amount of tax. These excess amounts are no doubt intended for 10 per cent of the original amount of tax levied and I have taken the same into my account as such and they are charged in my journal.

"The treasurer's report for the month of September, 1889, is missing. I have never had it and cannot find it. In this same month I have located a shortage of four hundred dollars, which was not corrected in the accounts nor cash made good as per the accounts, until September 1, 1893, a period of about four years."

### Shortage of \$4,500 in the License Money.

Mr. Card says further that he is unable to find any record of the West Milwaukee street paving fund in 1888, the amount of that improvement being \$5,908.61, and the orders draw amounting to \$5,771.50. No vouchers can be found of this fund and no statement of it in any monthly report on file. The treasurer's report for February and March, 1889, are missing. The expert notes the fact that forty-eight tax certificates have been redeemed or cancelled, but are not to be found. He says:

"I find that the total of the saloon license money actually collected in the months of May and June, 1892, was \$18,800.00, and that the amount accounted for was only \$14,300.00, leaving \$4,500 not accounted for at that time nor had the same been accounted for up to the date of my examination."

Mr. Card says that money deposited for the redemption of tax certificates was not entered for some months afterwards, as far as he could ascertain, and in many cases not at all. Duplicate tax collections are detailed at length, also the excess amounts collected as shown by the stub-receipts, and the listing of property for sale when the taxes are shown to have been paid.

Finishing his report concerning the treasurer, Mr. Card gives the result of his audit of the account of ex-city Marshal John W. Hogan, Marshal Acheson, and Patrolman Hogan and Kruse, giving the balances published in the Gazette last evening.

### MONEY TO LOAN ON REAL ESTATE, S. D. GRABBS.

## SHEEP HAVE BEEN SOLD AT A LOSS

No Profit Can Be Made on Wool Under the Wilson Bill.

The woolgrowers in Wisconsin are among those who feel the injurious features of the Wilson bill with a severe directness. Unless the duty on wool is restored the raising of sheep will become an extinct industry. One of the latest illustrations of this is found in the case of the Oakwood Stock farm, in Waukesha county. It is owned by Charles and F. H. Hartman and embraces 320 acres. Besides the breeding of fine horses carried on quite extensively the farm has heretofore had from 300 to 400 sheep upon it. Sometimes more. When the Wilson tariff bill went into effect—in fact, while it was being prepared—the owners of the farm decided that as a business policy they would get rid of all their sheep. They raise a fine quality of wool, which heretofore has brought in the market from 23 to 30 cents. During the last few months the highest they could get for it was from 15 to 16 cents, and as a result they have been getting rid of their sheep as rapidly as possible, selling it for mutton. In former years the lambs which they raised for market sold for \$2.50 each, but now the most that they will bring is \$1.50. There are now on the farm less than 100 sheep and they are being sold as rapidly as possible. Charles Hartman, who has been engaged in stock raising in Wisconsin for the last thirty years, says the past two years has been the hardest he has ever experienced. The prices of fine horses have decreased very largely for the reason that the people who usually buy them have felt keenly the hard times and are not able to make purchases.

## POINTS ON NOVEMBER WEATHER

Data Taken From the Records of Twenty-Three Years—What to Expect.

The data compiled from the weather bureau records at Milwaukee for a period of twenty-three years, for the month of November, shows the mean or normal temperature to have been 35 degrees. The warmest month was that of 1878, with an average of 41 degrees, and the coldest that of 1880, with an average of 27 degrees. The highest temperature was 70 degrees on the 7th, 1874, the 11th, 1892, and the 1st, 1888, while the lowest temperature was 14 degrees on the 29th, 1875. The average date on which the first killing frost occurred was October 20.

The average precipitations of rain and melted snow was 2.08 inches, and the average number of days with .01 of an inch or more was 10. The greatest monthly precipitation was 4.95 inches in 1877, and the least was .32 inches in 1880. The greatest amount of precipitation recorded in any 24 consecutive hours was 2.26 inches on the 1st and 2nd, 1886. The greatest amount of snowfall recorded in any 24 consecutive hours was 5 inches on the 25th, 1884. The average number of clear days was 6; partly cloudy 14; cloudy 13. The prevailing winds have been from the northwest. The highest velocity of the winds was 51 miles, from the northeast.

According to that eminent and honest democratic authority, the Recorder, the farmers are getting fat under a mongrel tariff. This paragraph from today's Recorder explains how:

## MAJOR UPHAM HERE FOR A SHORT TIME

ON HIS WAY TO WAUKESHA TO SPEAK.

He Is Engaged In "Putting the Guns Where the Lines are the Thinnest," To Use His Own Language—He Will Be Here On the Date Set For Him.

Sharp eyes and a drooping mustache were the distinguishing features of a stocky man of medium height, who sat in a passenger coach at the St. Paul depot this morning.

W. H. Upham was his name and he is the next governor of Wisconsin.

Mr. Upham has been making speeches about the state and was on his way from Monroe to Waukesha. He has been confining his work of late to Candidate Miner's district about Richland Center.

"Mr. Babcock, it looks to me, will have 600 majority," said the major with a smile "but Mr. Miner's district is not so sure. I believe in putting the guns where the lines are thinnest."

Major Upham said that he went to bed at 2 o'clock this morning and had to get up at 6 and that he expected to rest in about that same way during the next ten days. He promised to be in Janesville a week from Saturday, and pay his Janesville friends a more extended visit.

## WANT TO MAKE UP A NEW BAND

Prof. J. M. Smith as Manager and A. W. Kneff as Leader.

Members of the Bower City band are working hard to perfect a new organization and one that will be a credit to the city. They contemplate disbanding the present band and then forming a new one with Professor John Smith as manager and Alfred W. Kneff as leader. They also wish to purchase a new set of instruments and make up a first class band in every respect. With such musicians as Professor Smith and Mr. Kneff in charge the band would regain its old place, as best in the state, so Janesville people should help them along.

## ANECDOTE AND INCIDENT.

The other day M. Casimir-Perier, the president of France, went into a shop in Paris and opening a package which he carried produced an automatic doll, and asked the shop girl behind the counter whether it could be repaired. She replied that it could and asked who he was, that the doll might be sent home. He told her, when she stared at him a moment and fainted away. His dignity was too much for her.

Bishop William Boyd Carpenter of Ripon, England, is the court preacher. A story is told of him that when he was asked how he managed to address so exalted a personage as the sovereign and yet maintain his composure he replied that he never addressed her at all. He knew there would be present the queen, the princes, the household, the servants, down to the scullery maid. "And," said the bishop, "I preach to the scullery maid and the queen understands me."

A few days since a woman entered a certain hat store. She had in tow a boy of about 10 years of age. That is, his body was 10 years old, but his face looked like a man of 30. "I want a cheap hat for this boy," he said. "I don't care what it is, so long as it is cheap." The latter pulled over his stock, and finally presented to the woman a hat worth about fifty cents. "I guess this will satisfy you," he said. "It is fifty cents." "All right; I'll take it. I wanted something cheap for the boy to have fits in," and then she went out.

## THRIFT OF GERMAN PEOPLE.

Billions of Dollars in Home and Foreign Securities Held in the Fatherland.

The thrifty Germans are piling up wealth in the form of cash and securities at a rate which promises to make them of great importance as a creditor nation, according to a writer in the St. Louis Globe-Democrat. In view of the information sent to the state department at Washington and lately given publicly, the course of the German government is sticking close to the British government on the silver question is not surprising. Germany has to a marked degree the same interests that Great Britain has in opposing anything that tends toward inflation. Herr Miquel, the Prussian minister of finance, according to the report received by Secretary Gresham, estimates that the people of Prussia have at the present time \$7,075,740,000 in stocks, bonds and loans. It is calculated that 25 per cent of the wealth of Germany is invested in stocks and bonds and that this will probably rise to 40 or 50 per cent in the next generation. Professor Schmoller, a leading authority on economies in the empire, estimates that of the 49,500,000 people who make up the German empire 2,500,000 to 4,000,000 are in receipt of incomes from invested capital, says of those about one-half hold public securities. In Prussia, in the last ten years, the deposits in the savings banks are claimed to have augmented about \$44,030,000 per annum, and throughout Germany probably \$71,400,000 to \$95,200,000, from which it is inferred that the German nation is laying up from \$476,000,000 to \$595,000,000 annually, one-half of which goes into securities. In the last ten years there have been, in the aggregate, about \$952,000,000 to \$1,190,000,000 worth of foreign and \$1,904,000,000 worth of domestic securities put upon the German market.

With reference to the question whether Germany is wise in taking so much foreign paper, Professor Schmoller remarks that it is a healthy symptom, and indicates a thriving state of the people, and that, although much money has been lost thereby, it has been, on the whole, a valuable experience and the means of placing the German stock exchanges on equal footing with those of London, Paris and New York, a position which they did not occupy twenty-five years ago. The losses of the country from investments in foreign securities have been great, but they are argued to have been amply offset by the profits realized. From 1860 to 1892 the Germans are reckoned to have made \$238,000,000 in American and Russian securities alone, independent of all indirect benefits which may have accrued to the general business of the country through the connections made in the handling of such stocks and bonds. Germany now holds probably \$2,300,000,000 worth of foreign securities, which is presumably double what it possessed ten years ago. The interest and dividends on these add about \$119,000,000 of wealth annually to the country. This has a marked effect on the well-being of the country and its trade balance. What the country has lost in recent years through unfortunate investments in foreign securities has probably been about \$200,000,000, which, as remarked above, has been fully compensated for by gains made.

1760—George II of England died suddenly at Kensington, the right ventricle of his heart bursting, aged 70.  
1764—William Hogarth, painter and caricaturist, died at Chiswick.  
1806—General Henry Knox, Washington's secretary of war, died at Thomaston, Me., born 1750.  
1812—Ship Union, 54 guns. Commander Decatur, captured the British frigate Macedonia.  
1892—Caroline L. Scott Harrison, wife of the president, died at Washington; born 1833.

SELF PROTECTION COMES FIRST.

There is one kind of protection that every intelligent man believes in, and that is self protection. The policy of the republican party today is the same that it has been for the last thirty years, and the old argument in favor of a protective tariff carries with it as never before the weight of bitter experience. The subject may be threadbare and yet it was never more timely than now.

Write it in italics. Commit it to memory and November 6 vote for the republican party, because it believes in protection to American labor first, last, and all the time.

Free trade for America, means idleness for a large number of toilers, and scant pay for all wage earners, who are fortunate enough to find employment at all. The free trade features of the Wilson bill have demonstrated this fact, so clearly that it is not a debated question.

Go into the lumber districts or iron districts and talk with the men, and you will be convinced that free "raw material" has played havoc with their labor.

Self-protection demands a change, and this change will come on the sixth day of November, in the year of our Lord eighteen hundred and ninety four.

BE SURE YOU ARE REGISTERED.

Republicans should remember that next Tuesday is their last chance to register. No one who desires to vote should think that his name will be registered anyhow but should attend to the matter personally. That is the only safe way. In transferring the names from last year's poll book some have been omitted. Many new residents of the city are entitled to vote but are not registered. Each man should examine the poll list and see that the republican neighbor is enrolled. Nobody should take any chance in this important matter. Every republican whose name is not registered should bear in mind that Tuesday, October 30, is the final day for registration and should attend to the matter in person.

Both the Russian minister of the United States and one of the former ministers of the United States to Russia assure us that the heir to the Russian throne has none but the kindest and most friendly feelings for America. The United States certainly prefers to continue its friendly relations with Russia, and these assurances will be welcomed by all our peace-loving citizens.

Senator Gorman's health has improved materially since the adjournment of congress, but it is discreetly too poor yet to permit the Maryland senator to take part in the campaign. We may be sure that the restoration

to perfect health will not be completed until after the November election.

How very few of the leading democratic senators are on the stump this year! That sugar scandal silenced every tongue orators by the score and made them utterly worthless for campaign purposes.

This year when republicans should vote the straight ticket from top to bottom, Rock county should roll up an overwhelming majority as a protest against the destructive policy of the democratic party.

No good republican should give any aid to the candidacy of any man who is not on the republican ticket. Every man on the republican ticket is worthy of the support of all good republicans.

A Spring Valley farmer brought a load of wool to town yesterday and hauled it home again because he was offered only 8 cents a pound for it. That farmer will hardly vote the democratic ticket this year.

Thomas B. Reed: "Until the country knows that the democratic reformers are bound over to keep the peace there can be no revival in business."

Every republican should remember that next Tuesday is the last day for registration. See that your name is on the list.

It's about time for the democratic managers to give out another man campaign lie.

Economize.

One and a half teaspoonfuls Horsford's Baking Powder gives better results than two full teaspoonfuls of any other.

Like "Sweet Bells Jangled Out of Tune," Weak nerves respond harshly and inharmoniously to slight shocks, which would produce no effect upon strong ones. The shrill outcry of a child, the slamming of a door, the rattling of wheels over uneven pavement and other thrilling disturbances effect weak nerves—sensitive nerves, sorely. Nervousness is largely attributable to dyspepsia and non-assimilation of the food, a very usual concomitant of sleeplessness. Digestion and assimilation renewed by Hostetter's Stomach and Nerve Regulator and sound repose. The great alternative causes the liver and bowels to unite in co-operative harmony with the stomach, whereby the general tone of the system is raised to the true standard of health. In malarial complaints, rheumatism and kidney trouble, the Bitters produce excellent results.

A Disputed Case.

Many persons dispute the question as to whether or not baldness caused either by disease or neglect can be cured. In deciding the question allow us to say that most cases can be cured, while others can not. Only a specialist of years of experience can tell this. Professor Birkholz, the world-renowned German specialist of the Masonic Temple, Chicago, where those who desire a good head of hair or beard can consult him in private, and free of charge. After a thorough examination, which costs you nothing, we will tell you whether or not you may procure that trait of personal adornment so necessary to your existence, and if we find that the follicles are not all dead, we will treat you and guarantee the results or ask no pay. Call on or address Professor Birkholz, 1011 Masonic Temple, Chicago, Ill.

## STREET ROW ENDED DOWN IN THE JAIL

**JACK O'DONNELL SMASHES A  
BIG SALOON WINDOW.**

Night Officer Edward Smith Arrested Him and While He Was in the Grasp of the Law James Clifford Proceeded to Walk His Form In Addition.

"ABRAHAM, mush! Give me my money, you long geared!" So called "Jack" O'Donnell, who hails from Milwaukee, as he whirled a stick of stove wood about his head in front of Ryan & Connell's saloon on West Milwaukee street this afternoon. No one contributed any money, so O'Donnell threw the stick through the saloon window and began to swear again. Then he crossed the street where he had more room and tried to swear more than he ever had before in his life. Officer Ed Smith appeared about that time and grabbed O'Donnell and started down the street. While O'Donnell was in the grasp of the law when James Clifford, the concrete sidewalk maker, came along. He thought there was need of help and proceeded to kick O'Donnell's feet out from under him. As O'Donnell fell Officer Smith, who was not expecting anything of the kind had to loose his hold and Clifford began to "walk" O'Donnell's prostrate form. Officer Smith was trying to untangle them when Chief Acheson arrived and helped take O'Donnell to jail. He then made a complaint against Clifford for fighting, but the peaceful intentions of the sidewalk maker were explained and the action was dropped.

Cooper's madness is well known. Once he tried to hang himself and at another time endeavored to commit suicide by drowning himself.

Both Charles and Mary Lamb were dwellers in the borderland of madness. The latter was frequently placed in an asylum, the former but once.

**CURTIS BID ON ONLY PART OF  
THE WORK.**

There is a Long Trestle to Build and Lampholes and Other Extras to Be Provided For—None of These Features Were Covered in His Proposition.

Facts on the sewer contract awarded by the county board committee yesterday are easy to get. The Recorder finds fault because the bid of M. H. Curtis was not considered. The facts are, that Mr. Curtis did not bid as the committee advertised. There were but two bids in accordance with the advertisement, one being for the work in detail, the total being \$3,294.52, the other \$2,818.11.

Hon. Fenner Kimball, of the building committee was seen, but was reluctant to say anything further than that Mr. Curtis' bid was rejected on account of informality.

"The committee advertised for the work, the bids to specify what the various kinds of material would be furnished for, and also how much per lineal foot for trenching and laying the pipe," said Mr. Kimball. "Mr. Curtis' bid simply said he would lay the tile pipe at 28 cents per foot, and the iron pipe at \$1 per foot. Nothing was said as to furnishing supplies, building trestle, or putting on fittings. Ryan & Brown's bid covered all the conditions in detail. Their prices were: Building 216 feet of trestle, \$1.45 a foot; six inch tile, 19 cents a foot; excavating and filling, 39 cents a lineal foot; six inch iron pipe laid \$109 per ton; lampholes, \$4.75 each, making a total for the work complete, \$2,818.11. The bid of the Racine man was \$1.80 a foot for the trestle, 25 cents for tile pipe, \$105 for iron pipe laid, 44 cents a lineal foot for excavating and filling and lamp holes at \$4 each."

No Ground For Criticism.

Mr. Kimball is well satisfied that the committee acted for the best interest of Rock county.

County Surveyor Bleedorn was asked about the matter this afternoon.

"I think Mr. Curtis made a mistake, or someone made a mistake for him," said he. "He only included a small part of the work. Why, I made an estimate of the work, and figured the material at the lowest figure it could be purchased in Chicago, and my total went up above \$3,500. Over twelve hundred feet of the trench must go down a depth at eleven feet, and there is a trestle 216 feet long to be built, the material for which will cost one dollar a foot. I think it was a lucky thing for Mr. Curtis that his bid was informal and that it was thrown out. The work has been let at a very reasonable price, lower than I expected."

COAL DEALER SUED BY AN EASTERN FIRM.

Red Hot Debates on Etiquette Before Judge Phelps—Crescent Company Goes Into Court With its Claim Which is Disputed by the Janesville Man.

Judge Phelps' tribunal was occupied this morning with the case of the Crescent Coal and Mining company against W. H. H. Macloon, the action growing out of the difference of opinion concerning the weight of coal sold Mr. Macloon by the company. B. F. Dunwiddie represents Mr. Macloon and T. S. Nolan the coal company.

The case got quite interesting this afternoon. Fireworks were touched off at frequent intervals. While Mr. Macloon was on the stand the question of what was becoming to a gentleman came up and led to a little fencing between Mr. Nolan and Mr. Macloon. The discussion reached a point where Mr. Macloon declared "he didn't think he could get any lessons from Mr. Nolan" whereupon Mr. Nolan retorted:

"Yes you could, Mr. Macloon, and you know you would, too, if I was somewhere where I was not liable for contempt of court."

A Great Clothing Sale.

Weissend, the clothier and merchant tailor, will begin on Friday of this week, the greatest sale of ready made clothing consisting of 1000 men's and boys' suits, and 500 men's and boys' overcoats. This sale will continue until the entire line of men and boys suits and overcoats are closed out at wholesale cost. You can save at least 25 per cent by buying your clothing from him. Remember the place, 21 W. Milwaukee street.

Important.

It is important that you do not forget that the box office will be open Tuesday 9 a. m. for the Calhoun opera company's performance which takes place Thursday, November 1.

According to statistics the total cost of the liquors of all kinds consumed in this country is about \$16 per capita a year.

The rainfall of Oklahoma has increased since the settlers turned up the old buffalo grass and put in fresh crops.

The tusks of the largest Siberian mammoth ever dug up weighed 860 pounds.

## INCIDENTS OF THE DAY.

A leading hotel of San Francisco which operates its own electrical supply plant places candles in all its rooms wrapped in slips of paper bearing these words: "Use this candle in case the electric lights do not work and you need temporary light."

The pallbearers who bore the remains of Miss Huber to her grave at Louisville were eight young girls dressed from head to foot in white. The young ladies wore white caps, gloves, dresses and shoes, the emblems of purity. Naturally they attracted a good deal of attention, it being so unusual for females to act in the capacity of pallbearers.

On the train from Chicago to New York the other day was a tall, fine-looking man, with a gray mustache and goatee. He looked every inch a "personage." There was a good deal of gossip on the train as to his identity. There were those who claimed that he was a United States senator traveling incognito. Some one claimed to recognize him as a general in the regular army. Finally a purse was made up and given to the porter to find out who the man was. He proved to be a drummer for a wall-paper manufactory.

Harvey Carpenter of Grassy, Morgan county, Ky., raised a gourd, which when cleaned and dried held twenty-one gallons and one quart of water. A gentleman of Mt. Sterling came into possession of this gourd, and not long afterward he chanced to meet his friend, Mr. Sutcliffe, and asked him what he would charge for a gourd full of cider. Mr. Sutcliffe, being a clever man, wouldn't, of course, charge a friend anything for so small a favor, and told him to send on his gourd, but was surprised to find that his promise had obligated him to give away more than a half barrel of his good cider. But he is a man of his word, and sent the beverage.

## A NARROW ESCAPE!

## How it Happened.

The following remarkable event in a lady's life will interest the reader: "For a long time I had a terrible pain at my heart, which fluttered almost incessantly. I had no appetite and could not sleep. I would be compelled to sit up in bed and belch gas from my stomach until I thought every nerve would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I couldn't sweep a room without sitting down and resting; but, thank God, by the help of New Heart Cure all that is past and I feel like another woman. Before using the New Heart Cure I had taken different so-called remedies and been treated by doctors without any benefit until I was both discouraged and disgusted. My husband bought me a bottle of Dr. Miles' New Heart Cure, and am happy to say I never regretted it, as I now have a splendid appetite and sleep well. I weighed 125 pounds when I began taking the remedy, and now I weigh 120. Its effect in my case has been truly marvelous. It far surpasses any other medicine I have ever taken or any benefit I ever received from physicians." Mrs. Harry Starr, Porterville, Pa., October 12, 1892.

Dr. Miles' New Heart Cure is sold on a positive guarantee by all druggists, or by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price. \$1 per bottle, six bottles \$5, express prepaid. This great discovery by an eminent specialist in heart disease, contains neither opiates nor dangerous drugs.

"Upon my place at home there is an apple-tree, the fruit of which is sweet on one side and sour on the other," said C. E. Harrington, of Baltimore, Md., recently. "It has been known for many years that these apples existed, but no one has ever been able to explain the phenomenon."
